JUNIOR GOLF DONE RIGHT

We are Flynn Golf.

You may know us as the brand that's "all about junior golf." That's because we're driven by the belief that there's a better way to equip the next generation of golfers.

Saying we're custom is easy. Putting in the work to ensure every club is crafted with the individual junior golfer in mind—that's where Flynn Golf excels.

We don't do off-the-shelf or one-size-fits-all. Every club we make is precision-built for young golfers. Custom shaft trimming, clubhead weighting, and the most advanced components on the market. Our ALTO+ series, for instance, features driver heads forged from premium-grade titanium and irons in three distinct weight series—all designed for optimal performance and feel.

Flynn Golf's commitment to doing junior equipment differently has earned us a global following among junior golfers and their families. From creating world-class custom clubs to outfitting many champions in tournaments like the Drive, Chip & Putt Championship and the US Kids World Championship at Pinehurst, we're raising the bar for junior golf equipment.

Here's to the young golfers of the world playing their best and having the most fun.

AUGUSTA GAMERS

There may not be a better competition to evaluate the performance of clubs than the Drive, Chip & Putt tournament. The world watched as competitors of all age groups chose Flynn products including many finalists. Congrats everyone! And in April 2025, 15 or so players will be gaming Flynn equipment.

A female golfer is captured in the middle of a golf swing on a bright, sunny day. She is wearing a pink long-sleeved shirt, a white pleated skirt, a white visor with a pink logo, and blue-tinted sunglasses. Her hair is tied back in a ponytail. She is holding a golf club with both hands, and the club head is positioned high above her head. The background is a blurred green landscape with trees and a clear blue sky. The overall scene is vibrant and energetic.

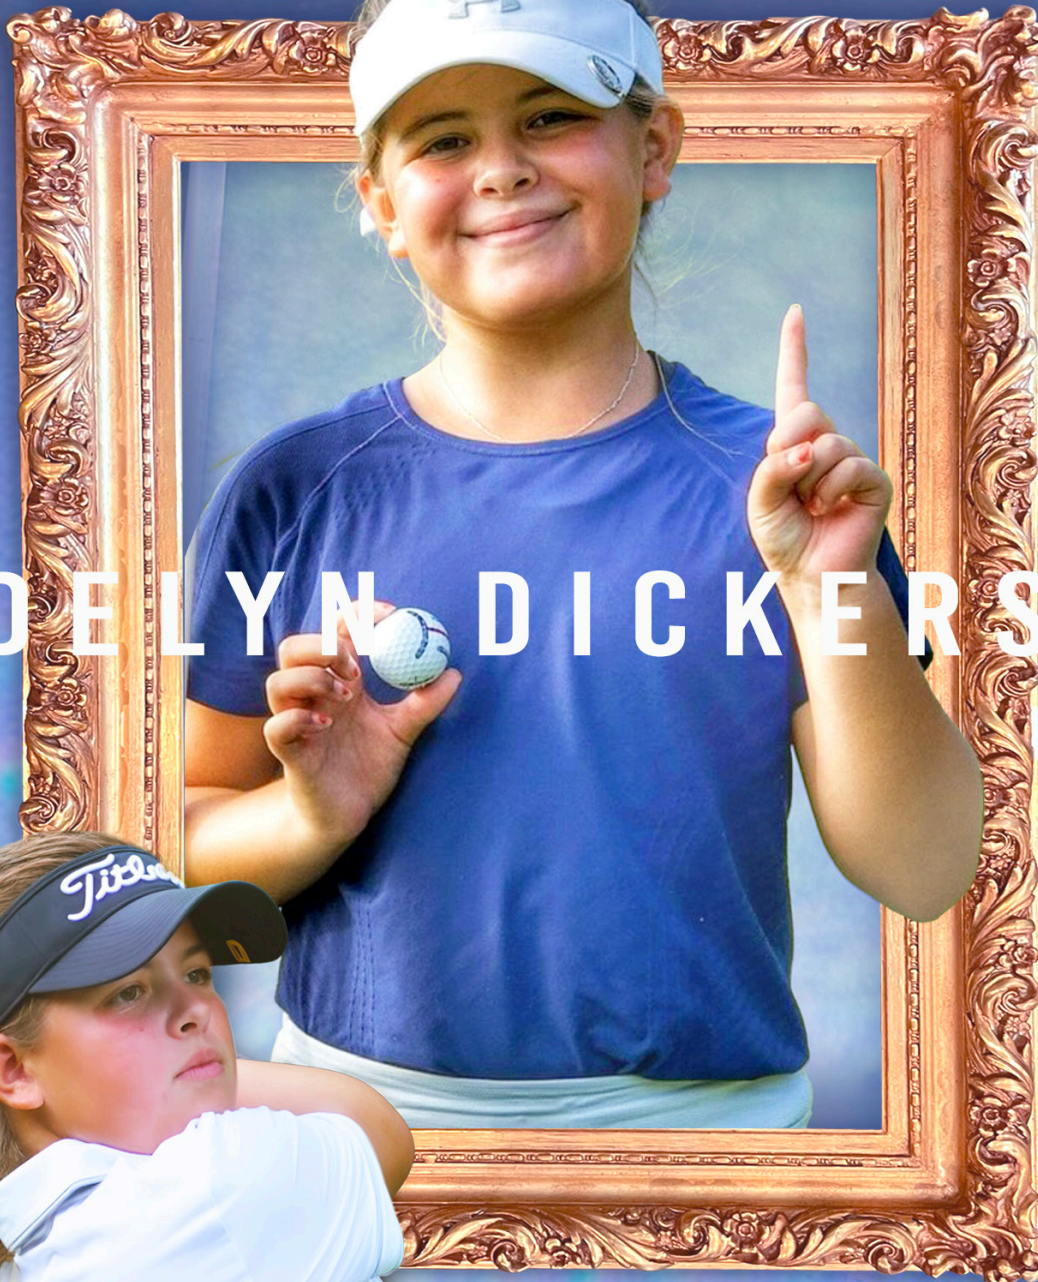

PINEHURST PERFORMANCE

Players from around the globe converge at Pinehurst. Thus, the event reflects the status of play on an international scale. It's truly satisfying to acknowledge that our equipment empowers more skilled young players worldwide than ever. In all, over 40 Top Ten Division Finishers, had Flynn Golf custom products in their bag. Congrats everyone!

FLYNN
PLAYER OF THE *Year*

MAD ELYN DICKERSON

Congratulations to Madelyn Dickerson (@madelyn.d.golf) of Debary, FL for her exceptional achievements in golf during 2024!

This year, Madelyn showcased her incredible talent with victories at the 2024 US Kids World Championship, Under Armour World Championship, and LPGA USGA Championship. She also excelled as a finalist in the Drive, Chip, and Putt Championship, earning first place in chipping. Now joining Skyy Wilding of Thailand (2022) and Riviera Lindholm of Canada (2023) as Flynn Golf Players of the Year, Madelyn continues to inspire with her skill and love for the game. We are proud to name Madelyn Dickerson as the 2024 Flynn Golf Player of the Year.

LTX

FORGED IRONS

PREMIER JUNIOR GOLF
TOP-TIER CUSTOMIZATION + HIGH QUALITY MATERIALS

NEW FLYNN LTX FORGED irons, are produced via industry benchmark processes, including multi-step billet forging from Premium 1020 Soft Carbon Steel and advanced precision CNC techniques for elite junior golfers who are adept ball strikers.

FLYNN LTX irons are designed and produced to provide the advanced feedback, feel, and performance of precision forged carbon steel irons.

With sleek & balanced design to enable responsive feedback, our LTX club line now offers the advanced junior golfer those same performance driven characteristics that are continuously sought after and played by PGA Tour pros.

LTX irons performance is further enhanced by our full line of ALTO Composite Performance shafts by UST Mamiya, as well as multiple junior steel shaft options which include KBS 560/580 and Flynn JS70 by True Temper; plus an assortment of grips by top brands, including Lamkin, Golf Pride, Winn and IOMIC.

FORGED WEDGES

LTX

FORGED

FLYNN LTX FORGED wedges, are produced via industry benchmark processes, including multi-step billet forging from Premium 1020 Soft Carbon Steel and advanced precision CNC techniques for elite junior golfers who are adept ball strikers.

Meticulously crafted from 1020 soft carbon steel for outstanding performance. These wedges are achieved through multi-billet forging and finished with double-sided precision CNC milling, all on a classic and versatile C-Grind sole design. Exceptional feedback, feel and as always, built from the most varied range of junior shafts, lengths, colors, and grips to suit your golfer's game.

Available in our full line of ALTO Composite Performance shafts by UST Mamiya, as well as multiple junior steel shaft options which include KBS 560/580 and Flynn JS70 by True Temper; plus an assortment of grips by top brands, including Lamkin, Golf Pride, Winn and IOMIC.

- Smooth Balanced Edges
- 98mm Blade Length
- 320 Grams

All V6 and V7 putters are custom assembled with your choice of standard or upgrade grips.

Some upgrade grips are shown here including SuperStroke, Winn and Iomic models.

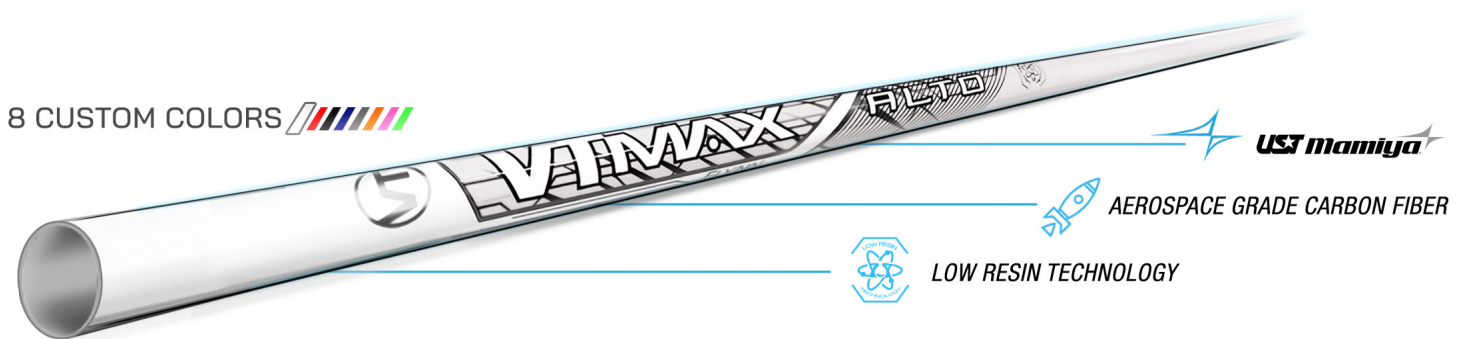

CUSTOM SHAFT SHAFTS

Our very popular VTMAX ALTO Series Shafts represent the most varied selection of shafts available for junior golfers. Simply put, we select from nine raw flex designs - all of which are then individually and differentially prepped and tuned, for each individual player. ALTO Custom Shafts are further enhanced by UST Mamiya's Low-Resin Technology for smoother feel and optimized performance. Additionally, every ALTO Shaft is available with any of our now 8 color designs including our New Matte White finish. Performance and Wow Factor All Wrapped Up in One!

Engineered by Shaft Experts at UST Mamiya.
